Allowable Subject Matter

Claims 70-187 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to data and information communication within an automobile mirror assemblies adapted to communicate wirelessly with other vehicular accessories and/or with personal accessories of occupants of the vehicle. The independent claims identifies the uniquely distinct features "an interior mirror assembly with a first wireless communication link in short-range wireless communication with a personal accessory of an occupant of the vehicle; a second wireless communication link to a service provider of information external to the vehicle; a manually operated control at the interior rearview mirror assembly for facilitating operation of the communication system; the interior rearview mirror including the display element located behind the reflective element to display information provided by the external service provider". The closest prior art, Turnbull et al. (US 6,166,698) and DeLine et al. (US 6,172,613) discloses conventional rearview mirror display and communication, either singularly or in combinations, fail to anticipate the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
